The LOBSTER x-ray all-sky monitor consortium

Los Alamos National Laboratory

Management
Detector readout electronics?
Spacecraft, ground station, flight operations, integration, and test
Analysis software lead?

Goddard Space Flight Center

Detectors and front-end electronics
Analog and digital electronics
Analysis software lead?

University of Melbourne, Australia

X-ray optics, coatings, and modeling
Ground site

Leicester University, United Kingdom

X-ray optics and coatings
Lens assembly, alignment, and calibration

The LODESTAR Collaboration

Educational outreach

All participants share in analysis software and science
